## EDITOR'S NOTE

---

### New Editor!

The next issue of the *Journal of Pharmacy Teaching* will be the inaugural one for a new editor. With Volume 4, Number 2, Dr. Robert Buerki will assume the demanding but professionally rewarding responsibilities of guiding the journal.

Bob Buerki brings a rich, diverse collection of experiences to the journal. He is, of course, recognized as a leader in the field of pharmacy ethics. His work (much of it editorial) with the American Institute of the History of Pharmacy spans decades. Most importantly, Bob Buerki has a lifelong commitment to excellence in pharmacy education that will certainly be reflected in the pages of the journal for years to come.

To the authors, the readers, the subscribers, and the reviewers of *JPT*, this author issues a heartfelt thanks. A word is in order, too, about the commitment of Haworth publisher Bill Cohen to expanding the literature of pharmacy. He and his company have taken some chances, and pharmacy is, we feel, better for that.

Mickey Smith  
Editor
