I am pleased to announce the launch of *Clinical Medicine Reviews in Therapeutics*, a new journal published by Clinical Medicine Reviews.

Clinical Medicine Reviews in Therapeutics focuses on the role of therapeutics in human clinical medicine.

Clinical Medicine Reviews in Therapeutics is published by Clinical Medicine Reviews, a new publisher of journals in the clinical medicine area. Clinical Medicine Reviews aims to become a provider of timely and highly reliable research in the area of therapeutics. It follows that rigorous editorial standards are applied to ensure that information provided to readers meets our high editorial standards. Articles will follow a consistent format so that the visual impact will be high and equal to that of the best hard-copy publications.

We expect to soon publish articles on topics including:

- Pharmacotherapy of breakthrough pain in opioid-treated patients: focus on Fentanyl Buccal Tablet
- Safety and efficacy of single-pill Amlodipine besylate/Atorvastatin calcium in the management of hypertension and angina
- A review of the pharmacotherapy of mood disorders
